

Child Health Outcomes: The Impact of Trauma on Children and Families

An Interdisciplinary Community Education Workshop (ICE)

This session will present information regarding the impact of trauma exposure on child health outcomes and development. Research in this area is emergent and professionals need to be aware of the latest evidence-based interventions and strategies to address the unique needs of children exposed to trauma and the short and long term effects it can have on development and cognitive function.

FEATURED SPEAKERS:

Melissa Hoffman, PhD, UTHSC Child and Adolescent Psychiatry

Teresa English, MSSW Shelby County Relative Caregiver Program

Malissa Duckworth, LCSW, UT Boling Center for Developmental Disabilities, Project ENRICH

COST: Make checks payable to *The University of Tennessee*; we accept MasterCard and VISA
\$30.00 regular professional registration
