

## **Center for Health System Improvement Affiliated Faculty and Staff**

**Mission:** To improve health and health care in the Mid-South region by supporting interdisciplinary health systems research, evaluating innovative regional health and health care quality improvement efforts, championing patient-centered outcomes research, and promoting sustainable community-driven health system change.

### **Benefits:**

- Information on funding opportunities, databases and tools to support health systems improvement research,
- Highlighting your work on Center website at [www.uthsc.edu/CHSI](http://www.uthsc.edu/CHSI)
- Opportunities for collaboration with multidisciplinary faculty from UTHSC, U of M, Rhodes College, and other institutions

### **Responsibilities:**

- Participating in at least three monthly (first Wednesday) Health Systems Research Conferences per year,
- Sharing research ideas and opportunities with Center affiliate faculty and staff,
- Mentoring junior faculty, fellows, residents, and students in health systems improvement research,
- Participating in collaborative research activities with other affiliate faculty
