The University of Tennessee Health Science Center
College of Dentistry

2014 Student Research Day
& Table Clinics

Keynote Speaker
Rade D. Paravina, DDS, MS, PhD

“Color in Esthetics –
The Science behind Beauty”

Dr. Rade D. Paravina is Professor of Biomaterials at the University of Texas at Houston School of Dentistry and Director of the Houston Center for Biomaterials and Biomimetics. He has authored/co-edited two books on color and color training in esthetic dentistry as well as software programs, an educational CD, and many scientific publications, and has designed/developed dental products and tests. He lectures nationally and internationally on topics associated with color and appearance in esthetic dentistry.

Tuesday, February 18, 2014, 1 to 4:30 PM
Student Alumni Center
