The Mind, Body & Soul

Family Medicine/Psychiatry CME Conference
April 12—14, 2013

Fogelman Executive Center and Conference Hotel
Memphis, TN

sponsored by

THE UNIVERSITY OF TENNESSEE HEALTH SCIENCE CENTER
DEPARTMENTS OF FAMILY MEDICINE AND PSYCHIATRY

Registration Form online at  uthsc.edu/fammed

The University of Tennessee is an EEO/AA/Title VI/Title IX/Section 504/ADA/ADEA institution in the provision of its education and employment programs and services.
ACCREDITATION
The University of Tennessee College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

CREDIT
The University of Tennessee College of Medicine designates this live activity for a maximum of 21.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

LODGING
A block of rooms are available at the University Holiday Inn Hotel, 3700 Central Avenue, Memphis TN 38152, (901) 678-8200, directly across from the Fogelman Executive Conference Center. The special conference rate is $119.00 single/double plus taxes. Please make your own reservations if overnight accommodations are needed. Rooms have been blocked for your convenience. Special rates are available until March 11, 2013, or until the block is full, whichever occurs first. Should this hotel be unavailable, please call our office at (901) 448-0240 for further lodging information.

LOCATION
This symposium will be held at the Fogelman Executive Conference Center, 330 Innovation Drive, Memphis, TN 38152.

PARKING
For free parking participants should park in the parking garage next door to the Fogelman Executive Conference Center at 330 Innovation Drive. Please bring in your white ticket to exchange for an exit ticket. Parking in other locations will not be validated.

PURPOSE
The purpose of this joint program is to provide practicing physicians, nurse practitioners, physician assistants and other health care professionals an update regarding selected topics of importance integrating family medicine and psychiatry.

EDUCATIONAL OBJECTIVES
Following this activity, participants should be able to:
• Make the most of leadership opportunities for primary care and psychiatry providers presented by the ACA.
• Utilize the newest technology used in telepsychiatry and describe how telemedicine concepts can be utilized to provide psychiatric care in underserved areas.
• Assist women in dealing with sexual issues and difficulties and appropriately direct management.
• Recommend useful non-pharmaceutical treatments for women with symptoms of menopause.
• Adopt communication strategies that support patient self-efficacy and help patients change unhealthy behaviors.
• Recognize, diagnose and appropriately manage patients with acute delirium.
• Deal with patient “resistance” in positive and effective ways.
• Identify and assist victims of human trafficking.
• Incorporate the newest evidence in making psychopharmacologic interventions.
• Legally and safely prescribe controlled substances in compliance with new state regulations.
• Recognize useful approaches to chronic neuropathic pain.
• Appreciate the spiritual and cultural barriers to effective end of life care in our community.
• Identify and develop a management plan for common parasomnias.
• Conduct a family meeting to explore options in end of life care.
• Explain the neurochemical and neuroanatomic basis of development of chronic pain disorders.
• Anticipate the use the DSM V to correctly code mental disorders.
• Apply concepts of the science of epigenomics to achieving better patient outcomes.
• Use current guidelines to effectively manage PTSD.
• Make reasonable decisions in applying patient care and prevention guidelines in the care of the elderly.
• Intervene appropriately in the prevention and treatment of Diabetes Mellitus.
• Compare the effectiveness of newly available pharmacologic treatments for obesity.
• Distinguish etiologies of Chronic Pelvic Pain and formulate effective management techniques.
• Identify and evaluate suicidal patients and select management and safety plans.
• Counsel and support families and loved ones of suicide patients.
• Communicate with other providers in ways that improve integration of primary and mental health care.
• Review the requirements for and process of becoming a Patient Centered Medical Home (PCMH) and discuss how family physicians add extra value through PCMH+ transformation.
