ACCREDITATION
The University of Tennessee, College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

CREDIT
The University of Tennessee, College of Medicine designates this live activity for a maximum of 22.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

LODGING
A block of rooms has been reserved at the University Holiday Inn Hotel, 3700 Central Avenue, Memphis TN 38152, (901) 678-8200, directly across from the Fogelman Executive Conference Center. The special conference rate is $119.00 single/double plus taxes. Please make your own reservations if overnight accommodations are needed and ask for the group name: “University of Tennessee”. Special rates are available until March 17, 2016, or until the block is full, whichever occurs first. Once Holiday Inn’s block is full, Fogelman will be offered at $97.00 per room.

LOCATION
This symposium will be held at the Fogelman Executive Conference Center, 330 Innovation Drive, Memphis, TN 38152.

PARKING
For free parking participants should park in the parking garage next door to the Fogelman Executive Conference Center at 330 Innovation Drive. Please bring in your white ticket to exchange for an exit ticket. Parking in other locations will not be validated.

PURPOSE
The purpose of this joint program is to provide practicing physicians, nurse practitioners, physician assistants and other health care professionals an update regarding selected topics of importance integrating family medicine and psychiatry.

EDUCATIONAL OBJECTIVES:
Following this activity, participants should be able to

- Learn appropriate response methods to recognizing patients with symptoms of Stroke and TIA’s.
- Learn about the neuropsychiatric complications of HIV/AIDS and the methods of diagnosis and appropriate treatment for each.
- Improve screening for and arrangement for treatment of a greater portion of patients with Bipolar Disorder or depression.
- New and up-to-date skills for diagnosing and preventive treatment for Women’s Health Issues.
- Recognize Palliative Care and Cancer resources and dealing with grief aspects of medicine.
- Recognize a potential adverse effect of high stress competition: substance abuse.
- Diagnose Diabetes in its early stages to prevent secondary complications.
- Recognize new areas of research and treatment that will facilitate mental health services in future health systems.
- Select mental health services for rural practitioners.
- Argue for better patient outcomes by using in-house mental health services in your practice.
- Use a strategy to enhance access and utilization of your practice by adolescents with substance abuse.
- Ask questions of the experts to solidify understanding of issues covered in the sessions.
- Develop a public health perspective when considering Mental Health services and Substance Abuse Clinics.
- Arrange appropriate evaluation and treatment plans for suspected Substance Abuse Geriatric patients.
- Devise an office system for improving the number of anticoagulant patients achieving their target INR.
- Confidently counsel a family about the level of functioning of an elderly family member and suggest compensatory measures.
- Use some insights about family dynamics to structure an effective family counseling session.
- Devise treatment plans for the Recovering Physician.
- Diagnose Geriatric Delirium and become more familiar with new medicines for treatment.
- Updates with regard to COPD, Tobacco Cessation, Asthma, Catatonia, and Diabetes in the primary care setting.
- Become more knowledgeable about Therapies in the field of medicine for adolescents, adults, geriatrics from Substance Abuse illnesses.
- Use the strategy of Tele-psych medicine for treatments in substance abuse.
- Use the strategy of Hypnosis and relaxation efforts when dealing with substance abuse patients.
- Learn about the consequences legally and clinically of utilizing psychotropic drugs and approaches to minimize side effects.
