SURGICAL CASE LOGS

The surgical case logs are crucial to the continued certification of your residency program by the Accreditation Council for Graduate Medical Education (ACGME). If these records are not complete it will affect your ability to be board certified.

The surgical case logs are to be entered via the Internet to the ACGME. You will need to have a user ID and password to enter the system and this will need to be given to the Education Coordinator. You will receive instructions on how to use this system. A summary of your cases is to be turned in at the end of each month to the Education Coordinator. Any resident not in compliance with these requirements will be relieved of all operating room privileges and moonlighting privileges until the surgical logs are completed. The Program Director and Education Coordinator will review these logs after each four-month rotation.
