The UT College of Pharmacy, founded in 1898, was the first pharmacy school established in the state of Tennessee. The only ranked school of pharmacy in the state, it has been listed in U.S. News and World Report’s Top 20 colleges of pharmacy for over two decades. With more than 6,200 graduates, the UT College of Pharmacy has major locations in Memphis and Knoxville, and a Clinical Education Center in Nashville.

Additionally, the college has over 300 sites across the state where students gain experience through community, clinical and institutional practice. Plus, the college offers international pharmacy experiences in 12 countries.

Roughly 75 percent of the college’s graduates remain in Tennessee to live, work and contribute to their communities and the economy.

The economic impact of the UT College of Pharmacy is estimated at $83 million through licensing technologies and discoveries that fuel the biotech industry in the Mid-South region.
