Lab Location:

435 So. Stadium Hall
Knoxville

Are you (or someone you know) an individual of 18 years or older with Autism Spectrum Disorder who is in or is interested in a romantic relationship? Our research lab is interested in understanding how your relationship began and how you have maintained this relationship since. We are also interested in understanding how your relationship functions on a day-to-day basis. Please reach out to us if you are interested in sharing your experiences so as to further our research.
