UTHSC College of Graduate Health Sciences
Strategic Map: 2021-2025

Promote Education and Research Training to Advance the Health Sciences through Scientific Discovery

Approved: Graduate Studies Council 09/28/21

A
Recruit, Educate and Graduate Successful Scientists and Research Professionals

1. Enhance the Pool of Qualified, Committed, and Diverse Applicants Through Active Marketing, Data Analytics, and Targeted Recruiting.

2. Provide Research Experiences that Enhance Recruitment

3. Provide Career and Essential Skill Development on a Path to Independence

4. Expand Students’/Advisors’ Awareness of and Access to Course Offerings

B
Enhance the Impact of Research

1. Leverage the Successful Institutional Repository for Posters and Presentations

2. Increase Trainee Presentations in Local, Regional, National and International Meetings

3. Increase Collaboration Opportunities for CGHS Researchers

4. Promote Entrepreneurship Opportunities for Trainees and Faculty

5. Increase Development of Translational Research

6. Increase Community Awareness of CGHS Research

C
Develop Productive and Effective Faculty and Post-Docs

1. Foster and Reward Excellence in Teaching and Mentoring

2. Develop Effective Career Mentors and Advisors

3. Develop Grantsmanship

4. Foster Interprofessional and Interdisciplinary Collaboration across Diverse Programs

5. Provide Professional Skills and Career Development

6. Enhance the Post-Doc Applicant Pool

D
Ensure Sufficient Resources to Meet Strategic Priorities

1. Actively Engage in UTHSC Faculty Recruitment and Retention

2. Recruit and Retain Qualified and Diverse Staff

3. Engage UTHSC Development and Alumni Offices

4. Secure Institutional and Extramural Investment

E
Nurture a Healthy, Ethical, and Respectful Culture in the Conduct of Research

F
Expand the Value and Visibility of the College to UTHSC and the Community

G
Embed Interprofessional and Interdisciplinary Education and Research in the Work of the College
