

UHS CLINIC VISIT PROTOCOL (COVID-19)

- Screening stations are designated at the main entrances of the clinic to assess patients, UHS staff, and visitors for temperature, symptoms, and/or exposures prior to entrance into the clinic.
- Waiting rooms are configured to allow for appropriate social distancing.
- Patients are scheduled incrementally to facilitate appropriate social distancing when in-office services are required.
- Virtual visits are being utilized for patient care when appropriate.
- All staff and patients are currently required to wear masks in the clinic until it has been determined the risk of exposure is nil.
