asklepieion: a word derived from the name of Aesculapius, the Greek god of medicine and healing. Aesculapius was honored and worshipped throughout the Greek world by persons seeking the healing powers of the physician. Temples were erected in honor of Aesculapius near healing springs or high mountains. Followers and worshippers of Aesculapius were known as Aesculapii, therefore the temples in his honor were known as the Aesculapii (asklepieia).

In the ancient city of Memphis on the Nile River there was a temple where persons went for worship and for care. In our modern city of Memphis on the Mississippi River people come to the asklepieion for healing and care.
