Celebrating 25 Years...
In 1980, the Imhotep Society became an official and recognized organization on campus, for the purpose of honoring students, faculty, staff, and alumni who have significantly contributed to the student life and student process at KU Memphis. It was recognized that many student leaders, in performing their functions and assignments, may have sacrificed high academic accomplishments and thus did not receive recognition through those organizations which traditionally honors students for high academic achievement.

While the principle objective of the Society is to reward and recognize student leadership and service on campus, a secondary goal is to inspire students to continue leadership and service roles as alumni of the University.

Student National Dental Association
Delta Sigma Delta was established by far-sighted professional men with vision who possessed the desire to render the best dental services in the highest professional manner. On November 15, 1882, seven dental students met at Mrs. Shastey’s boarding house in Ann Arbor and founded the first dental fraternity in the world. It was intended to bring together students, teachers, and practitioners. Professional fraternities have strong faculty support because of the high standards required for the establishment of a chapter on campus. Selectivity is a motto of Delta Sig.

A MILESTONE
In the College of Medicine

A retirement reception was held for Alicia Smith on October 20, 1995 on the first floor of the Hymen Building. Alicia joined the University in September of 1976 and worked in the Office of Student Affairs for the majority of her time here. Dr. Wall said "Alicia will never be replaced. She was a loyal and dedicated employee who was loved by students and staff alike." Alicia was joined by faculty, students and co-workers for a party in honor of her retirement. During the retirement reception, the Class of 1996 presented Alicia with a round trip ticket to Memphis for the graduation ceremonies. Thanks for the memories. We will all miss you.

Alpha Omega Alpha
Beta Chapter of Tennessee

Alpha Omega Alpha is the only national honor medical society in the world. Its raison d'être can be expressed in a phrase: to recognize and perpetuate excellence in the medical profession. AOA is organized for educational purposes exclusively and not for profit, and its aims shall be the promotion of scholarship and research in medical schools and graduates, and the recognition of high achievement in medical science, practice, and related fields. To fulfill the role it has set for itself, Alpha Omega Alpha selects outstanding medical students, graduates (house officers, faculty and honorary members) to its ranks. Scholastic excellence is a key criterion but not the only one for election to AOA: capacity for leadership, compassion, integrity, service to the school and the community at large, and fairness in dealing with one's colleagues are also to be considered.

In an effort to fulfill its goals, AOA sponsors a number of programs, including Alpha Omega Day and the annual Distinguished Visiting Professorship, which is designed to match the educational environment of the medical school. Moreover, the Society sponsors two annual competitions for students: The Student Essay Awards and the Student Research Fellowships.

In closing this section, I leave you with this excerpt from "To Be a Doctor" by Eusebi Martí-Ibanez (1911-1972):

"Ever since the day you first said those magic words, 'I want to be a doctor,' you have been wrapped in the colorful cloak of the history of medicine, a fabric woven from the ideals, wisdom, endeavors, and achievements of our glorious predecessors in medicine.

You have embarked on a fascinating voyage leading to the harbor of one of the most dynamic professions. Year after year, new windows will keep opening before your eyes, revealing the multifaceted landscape of medical art and science.

But medicine is so complex that no human mind can possibly absorb it all, as was possible a few centuries ago. Only by using the history of medicine as a gigantic frame can one appreciate that to be a doctor, in the true sense of the word, is to be not only a wise man but, above all, a good man. To be a doctor is, in other words, to be a whole man, who fulfills his task as a scientist with professional quality and integrity; as a human being, with a kind heart and high ideals; and as a member of society, with honesty and efficiency.

Contemporary medicine is founded on a series of events that resulted from the thoughts and deeds of a few men in the course of history. History is made by men, and the greatest among the makers of history is the physician because of the effects of his ministry on all other human beings.

To be a doctor, then, means much more than to dispense pills or to patch up or repair torn flesh and shattered minds. To be a doctor is to be an intermediary between man and God."

In Memoriam

Ruth Neil Murry

Ruth Neil Murry committed her professional life to pioneering the cause of nursing education in Memphis and the region. She was the first dean of the University of Tennessee-Memphis College of Nursing, serving from 1949 when the college became an academic unit independent of other colleges, until her retirement in 1977. Murry's 41 years of service to UT Memphis are distinguished by her steadfast and skilful leadership, and her dedication to the nursing profession and its ideals during the time the profession was defining itself as a vital and independent member of the health care team. Prior to her appointment as dean, she had served as educational director since 1944 and as director since 1946 of the School of Nursing which existed as a division of the College of Medicine. She was named emeritus dean upon her retirement in 1977. She died Thursday, Sept 9, 1995, at the age of 82.

Fuld Fellowship

Ms. Moran is the 1995-1996 Fuld Fellowship Winner for the state of Tennessee. Each year one student is nominated by the faculty to participate in the Fuld fellowship program. This year's essay topic was holistic health care. It required the student to describe, in a personal and concrete fashion, how they would benefit from attending the holistic health care course in Great Britain.

Nicole A. Moran

Summer III Mayo Intern

Ms. Wood spent the summer of 1995 at the Mayo Medical Center in Rochester, Minnesota. She participated in the Summer III program which allows students to gain hands on nursing experience within an acute care setting. During the 10 week period she worked in the obstetrics department, postpartum and level 1 nursery. She worked with students from around the world.

Valor

Every year the Veterans Administration Hospital selects two applicants to the Valor Internship program. This year Mrs. Potton and Mr. Winchester were chosen to fill these prestigious positions. They worked alongside the nurses in the intensive care unit and gained valuable experience to apply toward their own careers in nursing.

William T. Cashdollar Lectureship

The William T. Cashdollar lectureship was created by Mrs. Kathy Cashdollar to improve the care for dying persons and their families, is an annual event that is available to all health care professionals. The faculty and students of the UT College of Nursing are always very involved in this event. This year's lecture was titled, "The Uniqueness of Hospice Care: Perspectives from Yesterday, Today, and Tomorrow."
