Goals of the PPCNP Concentration

Welcome to the Pediatric Primary Care Nurse Practitioner (PPCNP) Concentration. This is one of eight different advanced practice concentrations preparing students for careers at the highest level of clinical practice. The College of Nursing admitted its first nurse practitioner students in the summer of 1973. The MSN PNP program began in the early 1980s. In 1999, the College started the clinical doctoral program and transitioned the advanced practice Master’s programs to the DNP shortly thereafter.

This program prepares PPCNPs graduates and certificate completers to independently diagnose and treat newborns through late adolescence (0-21 years of age), provide comprehensive health assessment, developmentally appropriate health promotion activities, family counseling, and management of commonly encountered acute and chronic illness.

Graduates are eligible to take national certification examinations for Pediatric Primary Care Nurse Practitioners. Graduates are expected to contribute to delivering quality health care through their implementation of evidence-based care and their ability to foster independence in children and their parent's management of health.

Purpose of the Manual

The purpose of this manual is to acquaint students, preceptors, and faculty with some of the elements that are a part of the clinical education of PPCNP. The processes of selecting, approving, administering, and evaluating the wide variety of clinical learning experiences are.

Education is a dynamic undertaking, and there are several changes that take place over the school year. Please contact the faculty for any questions you have.
Current PPCNP Faculty

Sally Humphrey, DNP, APRN, CPNP-PC
Assistant Professor, Pediatric Primary Care Concentration Coordinator
Office Phone number: (901) 299-5722
E-mail address: shumph13@uthsc.edu

Christina Wills, DNP, APRN, CPNP-PC
Assistant Professor
Phone number: (901) 481-9936
E-mail address: cwalla30@uthsc.edu

DNP Program Administration

Charleen McNeill, PhD, RN
Professor & Executive Associate Dean of Academic Affairs
Office phone number: (901) 448-1320
Email address: cmcneil8@uthsc.edu

Bobby Bellflower, DNSc, NNP-BC, FAANP
Professor & Director, DNP Program
Office phone number: (901) 448-4153
Cell phone: (901) 921-7621
E-mail address: bbellflo@uthsc.edu

DNP Program Staff

Trimika Bowdre, PhD, MPH
DNP Program Coordinator
Office phone number: (901) 448-6099
E-mail address: tbowdre@uthsc.edu

Rachel George, BSN, RN, FCN, IBCLC
Clinical Coordinator DNP Program
Office phone number: (901) 448-2810
E-mail address: rgeorg13@uthsc.edu
Expectations for DNP Students

The general expectations for students in the College of Nursing are contained in the UTHSC Catalog and CenterScope located at http://catalog.uthsc.edu. This document focuses on specific issues for the clinical aspects of the PPCNP Concentration.

PPCNP students work with several faculty, staff, and preceptors as a part of their clinical education. Several official documents must be executed before beginning any clinical assignment. You will need to know which documents must be completed, by whom and when.

With the assistance of the Clinical Coordinator, your faculty will identify and assign your clinical site and preceptor. All clinical sites and preceptors are required to be approved and proper documents executed between them and the university before you begin to see patients at the site.

Student Responsibilities for Clinical Experiences

1. Review clinical course outcomes.
   You are responsible for knowing what you need to learn and how your learning progresses in the course.
2. Meet with the preceptor, if indicated.
   Some preceptors prefer to interview you before agreeing to work with you. If you are asked to interview, you should use the interview to your advantage.
   a. Provide the preceptor with an understanding of your level, ability, and personality.
   b. Enable the preceptor to assess if you will be a "good fit" for the clinical site and the population it serves. You can put your best foot forward by being prepared with a curriculum vitae (CV) or résumé.

Scheduling of Clinical Experiences

- Clinical practicum experiences are scheduled at the convenience and availability of the preceptor.
  - Please don't expect preceptors to conform to a schedule that meets your employment needs.
  - You and the preceptor need to agree on the days and times you will be in the clinical agency before beginning.
  - Unless otherwise stated in the syllabus, you are expected to begin the clinical experience when the course starts and complete it when the course ends.
- Enter the start and end dates, along with the days of the week for the entire time you will be at the clinical site in ProjectConcert (the approved online program for tracking clinical experiences).
- Schedule a mid-term and final clinical evaluation with the preceptor.
Professional Dress and Behavior

- As a representative of UTHSC College of Nursing, you must present yourself professionally.
- Be respectful of preceptors, faculty, staff, patients, and their families.
- Dress professionally and wear your UTHSC Student ID.
  - A short lab coat with the UTHSC patch on the left upper arm is appropriate unless the preceptor requests otherwise.
  - You should follow the dress and OSHA standards for the clinical attire of your clinical site.
- Express your appreciation to your preceptor(s) for their assistance. They are volunteers supporting your education goals.

Preparation for Clinical Experiences

- Complete and submit the Student-Preceptor-Faculty Agreement form, including signatures from all parties. After submission of the document students must receive official approval via email from the Concentration Coordinator before beginning any clinical hours.

  *Students assigned to clinical rotations within the Developmental Pediatrics unit (LEND program, Dr. Toni Whitaker, Sarah Carter, PNP, etc.) should instead use the “Student-Preceptor-Faculty Document” found at this link:
  https://liveuk-my.sharepoint.com/:w:/g/personal/shumph13_uthsc_edu/EUrvxMQYmfhOkkidx75fxpcBVtIUnylwo41TOf7RxHepQ?e=DZ4Z78

- Verify appropriate attire, location, time, and necessary credentials before the first clinical day at the clinical agency.
- Discuss questions about computer access, the procedure for preceptor cosigning documents, eating and parking arrangements, and communication with other disciplines.
- Please clarify the preceptor's preferred method of notification in the event of late arrival or absence.
- Learn something about the preceptor to acknowledge the preceptor's background and broaden your educational experience.

CPR Certification: Students are responsible for maintaining current CPR certification.

- Should the certification expire during the time the student is in the program, students have the professional responsibility to recertify to remain current.
- Clinical experiences are not permitted unless CPR certification is current.
- The dates of coverage for certification are to be entered into Verified Credentials and ProjectConcert.

Criminal Background Check: All students undergo a required criminal background check before beginning the program and annually. Any changes are required to be reported immediately by students as a condition of remaining in the program.
**Drug Screening:** Students undergo a required urine drug screen before beginning the program and annually. Also, drug screens may be required for cause, random screenings, or clinical agency requirements.

**Immunizations:** The University requires that students complete a list of immunizations as well as TB skin testing before engaging in any patient care. These data are maintained by University Health Services in Verified Credentials. You will receive extensive communication about immunizations and how to track them. Clinical agencies may have other requirements for vaccination, but students will be informed of those requirements.
Attendance in Assigned Clinical Experiences

- Attendance at the negotiated times and days with the preceptor is required.
- Unapproved absences for assigned clinical experiences are a violation of professional behavior and may result in disciplinary action.
  - Immediately notify the preceptor and faculty if you are not able to attend a scheduled day.
  - You will need to present a plan to make up missed experiences and have this approved by the faculty and preceptor.
Notify faculty immediately if you find you are running into problems attaining the required number of clinical hours.

Use of ProjectConcert to Track Experiences

The PPCNP concentration uses the ProjectConcert system to record and maintain student and clinical data. Each student has a specific account assigned to them.

- Clinical encounters must be documented in ProjectConcert.
- Students upload and maintain current RN licensure and CPR certification.
- Students may also upload required clinical forms or complete other clinical assignments.
- Faculty review ProjectConcert to ensure students are on track with various experiences and progress toward completing the clinical experiences on time.
- Approved preceptors and clinical sites are maintained in ProjectConcert.

Expectations of Preceptor and Volunteer Faculty

- Mentor and serve as a role model for the student.
- Guide the student to meet the course outcomes.
- Identify appropriate clinical encounters for the student.
- Direct the use of accepted clinical guidelines and standards of care.
- Tailor guidelines/standards to unique clinical situations.
- Assist the student in the refinement of interpersonal skills with patients and colleagues.
- Alert students and faculty of problems early to provide opportunities for improvement.
- Evaluate the achievement of the learning outcomes.
- Provide the student with feedback.
- Demonstrate high ethical standards.
- Demonstrate respect for the student's faculty, curriculum, and program.

Essential Aspects of the Student and Preceptor Relationship

- Immediately report to the faculty any student behaviors threatening the patient's safety or risk to the clinical site.
- Monitor and report student performance, including at risk of not meeting standards.
• Supervise students in the clinical setting.
• Communicate with the appropriate staff about the scheduling of patients, the availability of exam room space, and specific procedures to enhance learning with minimal disruption of the office routine.
• Provide student evaluations using the appropriate Clinical Performance Evaluation forms.
• Understand the legal liability of the preceptor role.

Preceptors Can Expect Students To:

• Meet with the preceptor to clarify course objectives and focus on clinical activities.
• Assist preceptor in completing required documents associated with the preceptor role.
• Create an acceptable schedule with the preceptor.
• Contact the preceptor in case of any absence before the absence.
• Negotiate with the preceptor for making up time missed, if needed.
• Dress appropriately for the site and behave professionally at all times.

Preceptors Can Expect Faculty To:

• Provide course description, clinical outcomes, and the amount of time required.
• Provide information about the PPCNP program.
• Provide methods to contact a faculty member.
• Act on any problems affecting student progression in clinical coursework
• Guide preceptor in the student evaluation process.
  • Provide feedback to preceptors on their perform

Preceptors who wish to be Appointed Volunteer Faculty

Preceptor/Volunteer Faculty

The College of Nursing appoints all preceptors as a preceptor or volunteer faculty before accepting any students. This appointment provides recognition of the responsibilities of the preceptor and offers legal protections as well. All approved preceptors are listed in ProjectConcert.

The University of Tennessee recognizes the valuable contributions of people who freely give their time and talents for the benefit of the University without compensation. In the enactment of the Tennessee Claims Commission Act of 1984, the Tennessee legislature recognized the need to protect volunteers from legal actions while performing their service on behalf of the University. Volunteers who are registered with the University enjoy civil immunity from liability under the Act. Volunteers are not covered for Worker's Compensation. We encourage preceptors to consider becoming a Volunteer Faculty in the College of Nursing.

The following information is required to be submitted and approved as Volunteer Faculty:
• Curriculum vitae or résumé
• Copy of current license
• Two letters of recommendation from individuals who can speak about your professional qualifications
• Permit a background check

Preceptors who wish to be recommended as volunteer faculty should notify a faculty member who will facilitate this process. Volunteer faculty are eligible for:

• Discounted Membership to the UTHSC Fitness Center
• Access to the UTHSC Library, including online journals, books, and databases (e.g., Up-to-Date)
• Free evening and weekend UTHSC campus parking; and
• Discounted fees at the UTHSC Dental Clinics.

Expectations of Faculty

**Before the beginning of a clinical assignment, faculty will:**

• Verify appropriateness of clinical site and contractual agreements.
• Orient new preceptors to the preceptor role and College of Nursing educational expectations.
• Review preceptor responsibilities with continuing preceptors related to course and level of the student.
• Prepare students for clinical experience, including faculty-specific communication requirements.
• Validate student qualifications for clinical practice.
• Understand the legal liability of the preceptor role.

**Throughout the course, faculty will:**

• Have first-hand knowledge of the clinical site through either an in-person or a virtual site visit.
• Work with the student and preceptor to ensure the learning outcomes are being met.
• Monitor the use of clinical guidelines and standards of care.
• Support students in the refinement of effective communication.
• Encourage the student to focus on problem areas early to provide an opportunity to refine skills by the time practicum is completed.
• Communicate with the preceptor regularly to monitor student's progress in the course.
• Evaluate students through direct observation and preceptor feedback using proper forms.

**Legal Agreement Requirements**
Several documents are required to be executed by the University of Tennessee before the beginning of any student clinical experience. Some of these are rather complex and can take from weeks to months to complete.

**Site Approval**

Each clinical site must have a current and valid contract between the clinical organization and the University of Tennessee. This agreement specifies the responsibilities of each organization and provides legal protections for both. All currently approved sites are listed in ProjectConcert, but some may be difficult to find as the organization's name may have changed since the initial approval. The Clinical Coordinator can assist in identifying approved sites.

UNIVERSITY OF TENNESSEE HEALTH SCIENCE CENTER
COLLEGE OF NURSING

Student-Preceptor-Faculty Agreement

Course # ______________________ ______________________
Semester/Year: __________

The preceptor agreement permits nursing students of the College of Nursing, University of Tennessee Health Science Center (UTHSC) to participate in a student preceptorship in your facility, ______________________. Conditions of this program are as follows:

(Clinical Site Name)

The Affiliation period will be from ______________________ to ______________________.

The student, ______________________, will be under the supervision of ______________________, acting as preceptor.

(Preceptor Name)

**Preceptor Responsibilities:**
1. Participate in a preceptor orientation.
2. Function as a role model in the clinical setting.
3. Facilitate learning activities for no more than two students per day.
4. Orient the student(s) to the clinical agency.
5. Collaborate with faculty to review the progress of the student toward meeting clinical learning objectives.
6. Provide feedback to the student regarding clinical performance.
7. Contact the faculty if assistance is needed or if any problem with student performance occurs.
8. Discuss with faculty/student arrangements for appropriate coverage for supervision of the student should the preceptor be absent.
9. Give feedback to the nursing program regarding clinical experience for student and suggestions for program development.

**Nursing Program/Faculty Responsibilities:**
1. Ensure that preceptors meet qualifications.
2. Ensure that there are current written agreements which delineate the functions and responsibilities of the clinical preceptor and associated agency and nursing program.
3. Ensure that clinical experiences using preceptors occur only after the student has received basic theory and clinical experiences necessary to safely provide care to clients (within course or curriculum).
4. Orient both the student and the preceptor to the clinical experience.
5. Provide the preceptor an orientation to the philosophy, curriculum, course, and clinical objectives of the nursing education program. Discuss student expectations, skills' performance, student guidelines for performance of procedures, and methods of evaluation.
6. Assume overall responsibility for teaching and evaluation of the student.
7. Assure student compliance with standards on immunization, screening, HIPAA compliance, OSHA standards, CPR, criminal background check as needed and current liability insurance coverage.
8. Work cooperatively with the preceptor and the agency to determine student learning needs and appropriate assignments.
9. Make appropriate student assignments with the preceptor.
10. Communicate assignments and other essential information to the preceptors.
11. Meet regularly with the clinical preceptor and the student in order to monitor and evaluate the learning experience.
12. Monitor student's progress through rounds, student clinical seminars, student-faculty-preceptor conferences and review of student clinical assignments.
13. Be readily available, e.g., telephone, pager or e-mail for consultation when students are in the clinical area.
14. Receive feedback from the preceptor regarding student performance.
15. Provide recognition to the preceptor for participation as a preceptor.

**Agency Responsibilities:**
1. Retain ultimate responsibility for the care of clients.
2. Retain responsibility for preceptor's salary, benefits, and liability.

**Student Responsibilities:**
1. Verify clinician/administrators eligibility to function as preceptor.
2. Maintain open communications with the preceptor and faculty.
3. Maintain accountability for own learning activities.
4. Prepare for each clinical experience as needed.
5. Be accountable for own nursing actions while in the clinical setting.
6. Arrange for preceptor's supervision when performing procedures.
7. Contact faculty by telephone, pager or e-mail if faculty assistance is necessary.
8. Respect the confidential nature of all information obtained during clinical experience.
9. Wear appropriate professional attire and university name tags when in the clinical site.

*Signatures on following page confirm that the above conditions reflect correctly your understanding of an agreement to this affiliation*

| Conducts a comprehensive and systematic assessment of health and illness under mentored guidance. | Rarely = 1 | Sometimes = 2 | Often = 3 | Always = 4 |
| Collaborates with preceptor to use patient and clinical data to formulate common healthcare diagnosis(es) in a patient with only 1-2 presenting problems. |             |               |           |             |
| Obtains a complete patient history. |             |               |           |             |
| Conducts a thorough chart review, including PMH, laboratory and other diagnostic data. |             |               |           |             |
| Identifies evidence-based, patient-centered plan of care for common health problems for an individual patient. |             |               |           |             |
| Provides education to patients and/or families regarding their health condition and potential health risks. |             |               |           |             |
| Displays intellectual curiosity by actively seeking out knowledge and asking questions. |             |               |           |             |
| Demonstrates the ability to reflect on one's own learning and perform an accurate analysis of strengths and weaknesses of knowledge and skills. |             |               |           |             |
| Demonstrates interpersonal and communication skills that facilitate an effective exchange of information |             |               |           |             |
| Demonstrates the willingness to discuss sensitive issues with patients and/or preceptor. |             |               |           |             |
| Professional appearance and demeanor. |             |               |           |             |
| Demonstrate integrity and respect for others. |             |               |           |             |
| Engages team members using effective communication skills to develop a plan of care for a patient. |             |               |           |             |
| Actively solicits the patient's perspective to enable shared decision making in the development of a plan of care. |             |               |           |             |
Identifies one’s own responses to stressful situations and seeks help when necessary.

Articulates the need for continuous improvement processes in professional practice.

Exhibits a level of intelligence that instills confidence in others.

A = 56 - 46   B = 45 - 35   C = 34 – 25

General Comments:

- Are there aspects of this student’s performance that suggest a need for special attention?

- What has the student done particularly well?
