WHAT IS A CONFIDENTIAL RESOURCE?
A confidential resource means that information shared is protected by federal and state laws and cannot be shared without your explicit permission. You are welcome to contact one of the university’s confidential resources to learn about your reporting options, available support services, and resources.

PRIVACY VS. CONFIDENTIALITY
UTHSC employees have different obligations and expectations when students disclose information to them.

Employees identified as “mandatory reporters/responsible employees” are expected to keep information private, meaning that it will only be shared internally with other University employees who need to know (like the Title IX Coordinator or Deputy Title IX Coordinators) and generally would not be shared externally. Designated reporters are typically expected to keep student information private.

A small group of employees are expected to keep information confidential. Confidential employees typically are guided by state and federal law that requires that they not share information without permission from the student or as otherwise permitted or required by law. Conversations with confidential employees are generally privileged and therefore have additional protections under state and federal law. This means that information disclosed to a confidential employee is not subject to disclosure in many instances. Psychologists, counselors, psychiatrists, physicians, nurses, advocates, the Ombudsperson are some examples of confidential employees. (Note that conversations with the Ombudsperson are not privileged.)

Confidential employees are not required to make a report to the Title IX office and will typically not share information without your permission. However, they may be required or allowed to share information in certain circumstances. For example, if a court order is presented, if they have reason to believe that a student is at high risk for suicide or violence toward others or if a minor is being abused.

APPLICABLE LAWS

- Title IX of the Education Amendments Act of 1972
- Violence Against Women Act (VAWA)
- Campus SaVE Act
- Title IV, Title VI, and VII of the Civil Rights Act of 1964

The University of Tennessee Health Science Center (UTHSC) is committed to creating and maintaining a learning, living, and working environment free from all forms of sexual misconduct and relationship violence, including sexual assault, sexual harassment, dating violence, domestic violence, and stalking.

If you do not desire action by the University and would like the details of the incident to be kept confidential, but desire to confide in someone, you may speak with the following persons, who are called “Confidential Employees”:

- **University Health Services** – 901.448.5630 (day time) or 901.541.5654 (evening/weekends).
- **Student Behavioral Health** – 901.448.5064

  Student Behavioral Health Services, which is part of UHS, can provide emotional support for the victim as well as maintain confidentiality. A counselor is available at all times. Medical and psychological follow-up is available as long as needed.

- **Student Academic Support Services and Inclusion (SASSI)** offers free counseling and other student support at 901.448.5056 or uthsc.edu/sassi/resources/counseling.php

A Professional employee, such as a physician, psychologist, psychiatrist, counselor, CARE Navigator, or social worker, identified in this section, is a Confidential Employee only if the Complainant is communicating as if they are a patient or client. The designation of “Confidential Employee” can also include non-professional employees (i.e., staff, student-trainees or student-employees) or advocates who work or volunteer in on-campus health centers or a student support services area under the supervision of a person with a professional license. For instance, a class professor or clinical preceptor, who happens to be a physician or psychiatrist, would not be a Confidential Resource because such conversations would be part of an academic course of instruction and not for purposes of professional medical treatment or counseling. All faculty members are Mandatory Reporters.

Confidential Employees may periodically report non-personally identifiable information about Prohibited Conduct to the Title IX Coordinator to keep the Title IX Coordinator informed about the general extent and nature of Prohibited Conduct on and off campus.

You may choose to consult a private physician or go to an emergency department of your choice. As a result, a report to a private physician or emergency department does not put the University of Tennessee on notice of Sexual Misconduct or Relationship Violence.
