Rodent care descriptions:
*Standard box refers to standard charges for husbandry practices for a given facility or room, which includes caging, standard diet, standard bedding and a water bottle.

**IVC box refers to a box placed on a ventilated rack system with an automatic watering system. The per diem rate includes caging, standard diet, standard bedding and automatic water.

***Sterile microisolator care is provided at the request of the PI. The box is fully assembled (lid, grill, bottom, standard bedding) prior to autoclaving as a unit.

****ABSL2 is required for animals inoculated with human-derived materials (cells, tissue fragments, etc.), or for animals exposed to viral particles or other hazards deemed to require ABSL2 care.
