

## Eyewash Weekly Inspection Form

An emergency eyewash fixture is provided to flush tepid water to the eye, diluting any hazardous materials that may have come into contact with the eyes.

**General Requirements:**

Initial and date in the corresponding box verifying the eyewash station is checked weekly for the following:

- The pathway to the eyewash station is clear of obstructions
- The eyewash fixture is free of obstructions in all directions
- The nozzle dust caps/covers are in place and operating properly
- To test the eyewash station, flush water until clear water flows continually through eyewash head without any leaks, rust, dirt, etc. for approximately 5 seconds. ( If problems are evident, call Physical Plant at 8-5661)

Call Safety Affairs (at 8-6114) with any questions
