

**UTHSC - General Surgery Clinical Rotation G&O**

**Sponsoring Institution: Regional One Health (ROH)      Site: ROH      Rotations: Surgical Oncology      PGY 5**

By the end of the Surgical Oncology rotation at ROH, PGY 5 residents are expected to achieve the following objectives based on the six general competencies. The resident should exhibit an increasing level of responsibility and independency as he or she progresses throughout the year. Since competencies learned or mastered in the first three years of residency are competencies required for a successful surgeon, the fifth year resident will demonstrate achieved objectives in previous years with expanded knowledge, more efficiency in performance of procedures, and additional knowledge in pathophysiology encompassing more complex disorders.
